Dear Judge,

I love living in the US and love that it is a free market. I have always learned that an aid in that free market is that monopolies are disallowed. Therefore, I am puzzled by this PFJ. I have a good friend that works at Microsoft but I'm not mad at her. I am however, disappointed that her company has become this protected monster that has somehow recruited the government to do away with any serious competitors. This is not fair. I would ask that you reconsider this ruling.

Thank you,
George A. Ryness IV
